businesses which could be constructed in the area, and types of construction, and materials used. All contractors must secure a city permit before starting any project submitted.

The new Coast Coast Railway has started a contract project in the city, in which it proposes to build a new street engineering plant, rock and other material for the improvement of the streets. If city will not do actual construction of the roads. These streets are the one running north of the city to the road; the one running in front of the Farmer's Co-Operative store, and the one of the American Fruit Growers packing house from the Palm Springs road to the city.

The Commission approved even the plan for the improvement of the streets, and approved by the Solicitor from legal points.

Commissioner Paul Hardin, for that body, communicated the fact that the County Board of Supervisors had approved the payment of \$20.0 a day for the care of county and state prisoners in the city jail as of January 1, 1950. Stony Bay has approved a lease amounting to \$100.00 a month to be paid on a monthly basis. A letter of appreciation was ordered sent Mr. Barron for

city making the 1949-50 estimate of contracts, as a bid of \$1,000.00, payment to be made when the reports are accepted by the Commission.

The Belle Glade PTA sent a letter of appreciation for the donation of \$250. and the concrete seat end provided for the school campus.

**Assembly President To Visit Belle Glade**  
On January 17th

Belle Glade had a well attended meeting on Jan. 3, at which time arrangements were made for the visit of the Assembly President, Mrs. Clemmie Hord, of Ft. Myers, on the evening of January 17th, at 8 o'clock. In addition to the President's program, the installation of officers will be presided over by Deputy President, Mae Kernan, of West Palm Beach, with delegates from Glades and Golden Links Lodges of West Palm Beach and Lake Worth, will also make a fraternal visit on this occasion.

Official notice was received of the recent death of Past President of the Florida Rebekah Assembly, Mrs. Mattie Taylor, of St. Petersburg, who served as fourth president in 1911-12. The local charter was draped in her honor for a thirty day period.

Proclamations calling for lodge celebrations of the following anniversaries during this year, have been issued by Grand officers: January 15, the 158th anniversary of the founding of the United States; March 23, the 100th anniversary of the death of George Washington; and July 4, the 75th anniversary of the signing of the Declaration of Independence.

Arrangements were also made for an enjoyable after lodge social session with refreshments.

**Johnnie Hooker Assigned To Army Officers School**  
At Ft. Benning, Georgia

LT. Col. O. W. Hartwell of the 21st Regiment of the Florida National Guard, of which Infantry Company "B" of Belle Glade is a unit, has issued several important orders, which affect Company "B".

First Lt. Johnnie Hooker, commander of the Company, is to report to Ft. Benning, Ga., as a member of a class to take Officer Training Course. Another lieutenant, LT. Emory Pickens, of Pahokee, is the commanding officer of Company "B" and after January 25th.

**Glades May Get One Big Road Project**  
And Several Bridges

The Board of County Commissioners has determined on recommendations for road and bridge improvements within the county for 1950, and such recommendations will be presented at the next session of the State Highway Department for approval.

The projects provided for the Glades section includes the building of new bridges at the intersection of Route 1 and the Glades Harbor, on Route 80, and at Canal Point on Route 15, along with three small bridges between the Glades and the Twenty Mile bridge.

The big road improvement is the building of an eight mile stretch of new road from South Bay, north to Chosen and then on to the Palm Beach Airport Southwest of Pahokee. This route has long been known as a proposed "Bartle" cut-off road from Pahokee to Belle Glade, with a branch running to Cardwell, to connect with Route 15.

Funds for the county road and bridge work comes collectively from Federal and State allocated funds. A section of Route 1 will be built in the south end of the county starting at Yamata. Other work will be done on Route 1 and other roads.

**Activities of Glades Veterans Service Office**

Wilbur Kirchner director of the Glades Veterans Service committee states that M. E. Benton, assistant State Service Officer, will be in Pahokee at the Veterans Service Office Saturday morning from 9:00 a.m. to 11:30 a.m. His visit is for the purpose of assisting veterans and their dependents with any claim for benefits to which they may be entitled on account of the military services which may include assistance to widows, children and dependent parents of a veteran in addition to any claim for compensation of benefits.

It is that the veteran may wish to file under the "GI" Bill, or under any other law granting benefits as a result of entitlement for military service.

This service includes assistance with insurance problems as well as employers of veterans under the "GI Bill" schooling, subsistence, etc.

**Fire Fighting Demonstration Watched By Local Firemen**

Through the efforts of Eddie Jones, local agent of the Pyrene Manufacturing Company, a representative of that com-

pany in the person of Mr. Forrest B. Fowler, an extinguisher expert, the local Fire Dept. employed a very demonstration of various types of fire extinguishers and extinguishing agents, Monday night at the water plant.

Mr. Fowler proved to be a very efficient instructor in the use of extinguishers and extinguishing methods and passed on many hints and kinks of the trade that should prove very useful to the local firemen on future occasions.

One of the highlights of the demonstration was the extinguishing of an eight foot tank of burning oil with a small dry chemical extinguisher. Even experienced firemen were skeptical of this demonstration and were very much amazed at the ease and safety with which this fire was extinguished.

Several members of the Pahokee Fire Dept. were present and took part in the demonstration along with the local boys.

After the drill was completed and discussion finished the boys returned to the water plant for refreshments in the form of sandwiches and coffee.

**PAR—TEE LINE**  
Continued from page 1

**Assist Lee**  
Earl Lee has returned to Sand and when he goes into business for himself, Earl was well liked by the members and he will be a valuable asset to the club.

**Put Cakes Gladly Big Feed**  
Last Sunday morning the Producers Association of the Glades held a big feed for their members.

Menu of meat, loaf, corn, beans and bacon, pickles, potato salad, cherry salad, peanuts, bananas and a sack full of candy for each of the twenty-three that were there.

**Ladies Day**  
The ladies of the Glades Day with the usual luncheon and golf later. For those who do not play golf, the ladies had a game of bridge.

**Put Luck Sunday Evening**  
The ladies of the Glades Day with the usual luncheon and golf later. For those who do not play golf, the ladies had a game of bridge.

**Glades Cattle Story ATTRACTIVE TO BY CATTLEMAN'S GROUP**

Sponsored by the local Cattle Producers Association, compiled and printed by THE HERALD, the brochure distributed at the Miami convention of the National Cattleman's Association brought many favorable comments during and since the meet.

Profusely illustrated by pictures made on half dozen ranches in the Glades, the brochure is a real gem of the Raulerson and John Taber ranches are featured.

Given in the brochure is a description of the Glades came in for high praise by many of the principal speakers at the meet, Mr. Paul Thompson of Terre Haute, Ind.

**New Clerk Of Courts For St. Lucie County**

The Board of Commissioners of St. Lucie County, to P. Pierce, has named Raymond E. Ford, as clerk of courts, to succeed the late W. Lott. Ford has been a law counselor for the Board of Commissioners, and is also a member of World War II. He has assumed his duties.

**Golden Rams Lose Initial Game To Lake Worth Trojans**

Coach Maynor's Golden Rams basketball team went up against the fast Trojans at the Lake Worth gymnasium, Friday night, and while they put up a fast, snappy game, they were no match for the Trojans.

In the fourth quarter the Rams led by one point, but the Trojans tightened up and scored five points to win out.

Nelms was the high scorer for the Rams with 16 points. The other players on the Rams team are: Crosby, Farmer and Burke as forwards; Burke and Leavitt as centers; and Nelms, Garden and Leathers as guards.

The first home game is to be played at the high school gym, tonight, and Secret of Delroy will be the local opponent. The Seahawks always have an excellent basketball team and it is expected that to this year is a most favorable one.

**CARD OF THANKS**  
We would like to thank our many friends for the sympathetic thoughts and acts of kindness during the illness and death of our beloved brother, Roy Boots. Mr. & Mrs. W. H. Rawls, Mr. & Mrs. W. R. Boots, Mr. & Mrs. V. A. Boots. 1-13-51

**JEAN BRICKLEY IS WED TO LEROY MINERS, JR.**

The marriage of Melba Jean Brickley, daughter of the Rev. and Mrs. B. B. Brickley to Leroy Miners, Jr., son of Mr. and Mrs. Leroy Miners, Jr., took place at 7:30 a.m. on Jan. 10, 1950, at the Church of God, The Reverend Walter J. Pollard, uncle of the bride, who is pastor of the First Baptist Church at Floral City, officiated, assisted by the Rev. Leonard Vandewater.

Given in marriage by her father, the single ring ceremony was performed before an arrangement of lighted candles and huge baskets of white gladioli which adorned the entire front of the church.

Louise Moynaux sang, "Because" and "I Love You Truly", accompanied by Mr. J. W. Rashley, who also played the traditional wedding marches.

The bride's dress was of heavy white satin with long train, long fitted sleeves, fitted bodice and square neck line and buttoned at the back with small covered buttons. She wore a long net veil, sweetheart halo hair, trimmed with seed pearls and carried down into back.

The bride's paternal grandmother, Mrs. C. E. Brickley, of Baltimore, Md., the maternal grandparents, Mr. and Mrs. H. E. Pollard, of Winter Haven and Mrs. Lenora Norris, of Tampa.

**New Officers Of Belle Glade Chapter Order Of Eastern Star**

First row, left to right, main officers: Conductress, Mrs. Mar. Freeman; Worthing Patron, Walter Schlecter; Worthing Matron, Mrs. Mary Schlecter; Assistant, Mrs. Mary Schlecter.

The bride's paternal grandmother, Mrs. C. E. Brickley, of Baltimore, Md., the maternal grandparents, Mr. and Mrs. H. E. Pollard, of Winter Haven and Mrs. Lenora Norris, of Tampa.

**MOTHER OF POLIO**  
Continued from Page One

The Polio project has an estimated cost of \$208,000,000 tagged on it, work to cover in the next year or two.

Following the ceremony a small reception was held at the home of the bride's parents with a musical treat, followed by ten months of brace wearing. Now she is out of the brace and day by day gradually regaining her strength.

The Foundation has spent \$2,600.00 on Rachel's care, and she is still receiving one month's pay for the Clinic treatment and for her regular doctor visits every other month.

Following a short wedding trip to Tampa, the couple will reside on Avenue A, in Belle Glade.

Out of town guests attending

**A FRIEND TO FARMERS  
APPEARS ON MARKET**

Chemists have been searching around  
for a new insecticide that had better killing  
qualities than the popular DDT, and it has  
come in the form of

**RHOTANE**

It will give Better, Safer Protection  
against Corn Earworms and Borers, and  
other plants on which DDT has been used.  
It is approximately 1-5 — 1-10 as toxic to  
warm blooded animals as DDT.

Research has shown that Rhotane has  
been most successfully used in spraying  
Vegetables, Forage Crops, Live Stock,  
Fruits, in Mosquito Control and many other  
new uses. A deadly enemy to "hornworms".  
GIVE IT A TRIAL AND BE CONVINCED

**OBSERVATIONS**

Continued from page 1  
museum where vast collection  
of circus equipment, parapher-  
nalia and wall bills are to be  
seen. The third room is to be  
the winter quarters of the men-  
agerie where all the show ani-  
mals keep. Open house is the  
rule each day.

Every acquaintance of the  
late Mrs. Eva Horne Jones, was  
shocked and grieved over her  
sudden death. She was a friend  
worth having on one's list. From  
her early girlhood she loved to  
fish, and it was not uncommon  
to see her out on the canals or  
some of the ponds, enjoying the  
expectation of catching fish. She  
had a great maternal love for  
her children, and by visit or  
telephone kept a close check on  
her sons. That little trait of love  
is going to be missed by those  
sons more than a bit. She now  
reclines in her last home up in  
the beloved hills of Carolina  
where she spent most of her life,  
in the old family burial lot. Peace  
be to her ashes and memory.

The Board of Church Extension  
of the Methodist church in the  
past four years has provided more  
than twelve million dollars for  
church and mission pur-  
poses. This is more than the  
combined expenses for a hun-  
dred years. More than a thousand  
new congregations and churches  
have been established since  
during the same period. The  
WCSB thought its agencies has  
traveled more than five million  
dollars; the greatest contribu-  
tion of all the divisions of church work.

House wives and laundry  
people have had a hard time  
to find an ingredient that would  
erase ink stains from a ball  
point pen. It has now been  
found that rubbing the fabric  
on which the stain occurs in  
cold milk is the best known re-  
moval. Cold milk is the best  
for common ink removing. In  
the case of rayon, do not use  
alcohol as it is detrimental to  
the fabric. The recommended  
remedy is one part of alcohol  
to two parts of water. Several  
applications may be needed be-  
fore the stain is removed.

Talk about smoldering fire  
in muck lands, they are nothing  
compared to the political fire  
that has been raging in affairs  
of the Everglades Fire Control  
District, for the past two or  
three months. It sprang into  
flame at the quarterly meeting  
of the trustees in Belle Glade  
last Friday morning. Talk about  
pyrotechnics, there was plenty  
displayed and in terms of the  
street it was indeed a "hot" as-  
sion. There was an element  
down in Broward county which  
has been working hard to get  
a "favorite son" named to the  
chief wardenship, and from  
Palm Beach county, who had a  
willing candidate, in the person  
of Tom Campbell, former coun-  
ty tax assessor for years.

To the credit of Chief Warden  
Guy Bender, who has been in  
the office for 14 years, no  
charge of neglect or inefficiency  
has been placed against him.  
Interested parties want to make  
the chief position a political one.  
After all the fireworks were  
over, Bender was re-named as  
chief, for an unnamed term, and  
one warden from Broward coun-  
ty, Chas. Davis, marked for the  
axe, when his term expires in  
the near future. The vote to re-  
tain Bender was 5 to 3. So long  
as Bender is Chief the central  
headquarters of the district will  
remain in Belle Glade.

The latest parking meter col-  
lection amounted to \$427.00,  
one of the largest collections  
ever taken out of the coin re-  
ceipts.

Lots of seed planting was  
done in the Glades the past  
week, and the spring crop ac-  
cording to the state is going to be a stable one.  
Corn will have the largest plant-  
ing. The windrow sunflowers  
were badly damaged and in  
some fields where the winds  
were the strongest were a com-  
plete loss.

Better get that 1950 auto tag  
on your machine, or you will  
be receiving the attention of the  
state highway patrol officers.  
January 15 is the last day  
1949 tags are legal.

Arbor Day has been a func-  
tion which has been celebrated  
in Florida for a quarter of a  
century, mostly by farm groups.  
However, since the State Board  
of Public Instruction has made  
an event in the school year, the  
planting of trees and shrubbery  
has been advancing. This day  
comes on the 20th of January  
this year, and state wide observ-  
ance has been proclaimed by the  
state and school officials. The  
Florida Forestry Department has  
donated many thousands of  
seedling pines to schools, and  
to 4-H and Future Farmers of  
America forestry projects. The  
department produced 29,000,000  
seedling pines this year and has

sold all but 5,000,000 of them.  
If Floridians do not take up the  
surplus, then the Department  
plans to offer same to nearby  
states for forestry purposes.

Going to be some changes  
made in the high school foot-  
ball rule book covering the coming  
season's games. The new rule  
provides that the defense team  
may advance the ball on a fumble,  
a bobbed back play, or a  
"muff." The latter is termed a  
play when the ball has never  
been in possession of the de-  
fensive team. Balls kicked into  
the end zone, will be declared  
"dead" the moment it passes  
over the goal line and counts as  
an automatic touchback.

Burdine stadium was a popu-  
lar place for Pahokee citizens,  
as more than a hundred of them  
witnessed the fine game be-  
tween Santa Clara and Kentuck-  
y, which the Californians won.  
Belle Glade sent down even a  
larger delegation than did Pa-  
hokee.

The only athletic team which  
has not received the patronage  
it deserves, is the basketball  
team. There is a lot of sport and  
skill in this indoor pastime, so  
why not give the boys a lift at  
each game to give them the  
spirit to go out and win their  
divided years.

One local gasoline distributor  
and retailer made the remark  
"Last week I sold more petro-  
leum products than in any time  
in the history of my company  
and the wonder to me, is where  
it was all consumed." A large  
part went for pump fuel.

A number of the connecting  
streets of the town in negro town  
are being finished, widened and  
rocked by the City Street De-  
partment. Will make travel  
more smooth and safe.

The capital city of Palm  
Beach county continues to grow  
and expand. City Building in-  
spector reports that nearly nine  
million dollars of new construction  
work was done in 1949. Palm  
Beach also had a comparatively  
high record. Miami's record was  
also high. Building outside the  
Miami city area hit a new high  
level.

Those new advertising bro-  
chures which the Chamber of  
Commerce is now issuing are  
clever and pretty and should be  
the means of giving our fair  
city lots of favorable publicity  
over our land. Many requests  
for information concerning our  
area had piled up in the office  
and each applicant has now  
been forwarded one of the fol-  
lowing:

State Highway Patrolmen and  
City Police are happy to state  
that no highway fatalities oc-  
curred in this district over the  
Christmas holidays, and they  
appreciate the care in which op-  
erators of cars handled their  
machines.

Dugonne, I. I. estimated that  
what I wanted more than any-  
thing else was a cigarette light-  
er for Christmas. No dice, but  
instead plenty of oversized hose.

University Will Have  
Bob Woodruff As Its  
New Football Coach

The Board of Control and of-  
ficials of the University of Flori-  
da, at Tallahassee, on last Fri-  
day night, settled the question  
as to who would be the new  
football coach at the Gains-  
ville University by naming Bob  
Woodruff, of Bayor University,  
at Waco, Texas, as the man.

Woodruff was tendered and  
accepted a seven year contract  
at \$17,000 a year, making him  
the highest paid employee of  
the state. The salary is to be  
paid both by the Board of Control  
and the Athletic Association.

The new coach will work un-  
der different relations than have  
the string of previous coaches,  
in that he will be responsible to  
no other source of power. He  
will be the coach of the college  
team and public expression  
of the state and school officials  
in selection, as a most fortu-  
nate act.

Woodruff made a fine show-  
ing at Bayley especially with  
his 1949 team, which won eight  
and lost two in its schedule.

Red Cross Seeking  
Funds For Work  
During Coming Year

A fund goal of \$91,325 in  
Palm Beach County was an-  
nounced by the Palm Beach  
County Red Cross Chapter for  
the 1950 fund campaign to be  
held in March.

The fund goal was announced

by P. P. DeMoya, county fund  
chairman, who said the amount  
represented an increase over  
funds which were collected a  
year ago during the annual  
drive. The increase, he said, was  
the result of an increased quota  
of funds which the local chap-  
ter contributes to the National  
Red Cross. The county Red  
Cross budget, DeMoya said, is  
less than the budget for last  
year. The 1949 county quota was  
\$88,700.

Fund committeemen, the  
chairman said, have set Feb. 26  
as Red Cross Sunday through-  
out the county and that plans  
are being made to complete the  
fund organization so that the  
campaign can be finished in 10  
days. The drive will open March  
1.

A series of regional meeting,  
DeMoya said, will be held thru-  
out the county during January  
so that final plans for the drive  
can be completed in every com-  
munity well in advance of the  
date set for launching the fund  
campaign.

Several new fund divisions  
have been set up this year in  
the Everglades, where some of  
the small communities have  
been removed from the old di-  
visions and new fund campaign  
groups have been established.

New divisions have been  
designated at Canal Point, South  
Bay, Bean City, Bear  
Beach and Lake Harbor. These  
communities previously were a  
part of the Belle Glade and Pa-  
hokee Divisions.

Fire Department  
To Put Up Signs  
In Fire Ravaged Areas

Florida motorists, passing re-  
cently burned-out woodlands  
will soon see big red lettered  
signs reading "Look What Fire  
Did."

The signs are to be erected by  
fire fighting crews of the Flori-  
da Forest Service and by mem-  
bers of various County Farm  
Bureaus over the State, accord-  
ing to John Ford, executive  
vice-president of the Florida  
Farm Bureau in an announce-  
ment here this week.

"We thought this idea might  
be beneficial in preventing  
Forest Fires, by calling the at-  
tention of passing motorists to  
the destruction to the atten-  
tion of passing motorists."

The Florida Farm Bureau is Ave. E

indebted to Wm. S. Chambers,  
Jr., of the Forest Service and  
to the International Paper Com-  
pany for supplying the sign  
cardboard material," he said.

"Since the beginning of World  
War I automotive power, re-  
placing horses and mules on  
farms, has released about 65  
million acres formerly used for  
feed production.

FOR THREE YEARS PAST...

**World's Largest Selling  
Station Wagon**

**Because**  
FIRST utility wagons with all-steel body and top—safer,  
longer lasting, easier to maintain.

FIRST passenger-and-utility vehicle ever offered with choice  
of the conventional 2-wheel-drive model or the new 4-Wheel-  
Drive Willys Station Wagon!

FIRST utility car planned in every detail as a dual-purpose  
vehicle—seats removable to provide up to 120 cu. ft. of load  
space... seats and interior washable... wide, strong tilting.

**GUAVAS...**

**FLORIDA'S  
"CINDERELLA" FRUIT**  
can support an entire  
NEW INDUSTRY!

**AMAZING FACTS  
REVEALED BY RESEARCH**

Average Vitamin C content of guavas is  
exceedingly high. Florida guavas could  
easily supply the entire world's needs  
of this vital vitamin.

Florida guavas could supply enough  
vitamin-rich baby food for all the babies  
in the United States.

Amazingly versatile as a food...delicious  
as a fresh fruit...guavas make fine  
jellies, canned fruit, beverages, frozen  
food, dried fruit, health food and flavoring.

Easily processed...guavas freeze with-  
out loss of flavor or vitamins...can be  
preserved, canned, frozen or dehydrated.

Good for man or beast, guavas are a  
potential-source of a commercially  
feasible, vitamin-rich livestock feed.

Guavas grow so easily  
in Florida that few actual  
groves, exist. Most of the supply  
for Guava Jelly comes from  
wild trees.

Yet under cultivation  
guavas will yield an amazing  
crop. Trees mature in 3 to 5  
years, bear fruit year round, will  
grow in almost any kind of soil.

Research at the University of  
Miami indicates the possibility  
that a great guava industry  
can be developed in Florida...  
facts are available for all who  
are interested.

Belle Glade, Florida

relatives in Clewiston left Monday for their home at Elnam, Minn.

Thomas Hicks of Jacksonville, a student at the University of Florida has the over night guest at Okelanta Gardens recently.

Miss Irene Dawson of West Palm Beach has been visiting Mrs. Mildred Larrick at Lake Harbor and looking after property interests at South Bay and Belle Glade.

Mr. and Mrs. Joe H. Hodges had house guests last week his parents, Mr. and Mrs. T. J. Hodges of Troy, Ala., brother Mr. and Mrs. H. Hodges of Tampa and a sister Mrs. Ruby Aman of Auburnville.

Mrs. Maude Hartline has returned to her home at Boynton after a few days visit with her son and daughter-in-law, Mr. and Mrs. E. D. Hartline.

Rev. B. A. Oswald, pastor of the South Bay Baptist Church, Rev. and Mrs. T. J. Squires, pastor and wife of the Lake Harbor Baptist Church attended the Evangelist Conference at Jacksonville from Tuesday to Thursday.

Raymond Hardy had returned to Gainesville to resume his college course after a holiday field trip into the Everglades National Park in search of data and specimens.

Miss Helen Verge of Philadelphia was the holiday guest of her mother Mrs. Mildred Corley and sister, Mrs. Mildred Larrick at Lake Harbor.

Patricia Cato spent her holidays at Arcadia with her grand parents Mr. and Mrs. W. E. Cato who returned with her and visited their son Fred Cato and family at South Bay and sons at Belle Glade and Clewiston.

**South Bay People Mourn The Death Of Late Roy Boats**

Funeral services for Roy Boats, pioneer of South Bay and well known builder and business man, who died suddenly at Fruit General Hospital for Veterans in Coral Gables after only a few days illness, were conducted on Wednesday, January 4 at Mizell-Simon-Flavel Chapel in West Palm Beach at 4 o'clock.

Rev. Leonard F. Vandewater of Belle Glade officiated at the services with Rev. Dan Graham, pastor of the Belle Glade Presbyterian Church. Prayers were given and prayers at Woodland Cemetery where burial took place.

Dr. W. T. Forsee and Tom Watson, Jr., sang a duet, "Does Jesus Care" and Dr. Forsee sang as a solo, "Oh, Love That Will Not Let Me Go." Prayer at the chapel was offered by Mr. Watson.

Pallbearers were O'Neal Walker, Carroll Warren, W. W. Ferguson, C. E. Critchfield, R. Roadman and Clayton Waters.

Survivors are two brothers, Verne A. Boats of Belle Glade, William B. Boats of Philadelphia, Pa., and a half-brother, William H. Rawle of Charleston Navy Yard, S. C., all of whom were present.

An autopsy revealed that death was caused by an old injury to the brain resulting from an automobile accident in Washington a number of years ago when he lay at death's door for many weeks but recovered to serve throughout the World War as a Warrant Officer in the North African, Sicilian and Italian campaigns. He was commissioned lieutenant on the field of battle and was awarded the bronze star for meritorious service on the field of battle and in line of duty.

He was a member of American Legion Post 161, of the South Bay Chamber of Commerce and Past Noble Grand of the Odd Fellow Lodge. He was 37 years of age, a native of Sulphur Spring Valley, Arizona. He came to South Bay 24 years ago as a young boy with his parents, and three younger brothers. His parents and youngest brother were lost in the 1928 hurricane on Sebring Farm at Lake Harbor.

**Tots Enjoy A Birthday Party At Allen Home**

Mrs. W. C. Allen entertained at a party of little folks Friday in honor of her granddaughter Susie on her third birthday. Ice cream and cake were served by Margaret Thames, Neil Walker, Buck Holt, Mrs. Linton Miller and daughter Linda, Mrs. Ted Crews and Sandy of Belle Glade.

**South Bay Baptists To Have Revival Services**

Plans are well under way at the South Bay Baptist Church for a revival opening on February 5 to continue through

Feb. 19. Rev. R. F. Hallford of Dothan, Ala. will be the visiting evangelist. The McKinley Musical Messengers have been secured to take charge of the music. Mr. and Mrs. McKinley play a variety of instruments and the musical entertainment promises to be of full interest, according to Rev. B. A. Oswald, pastor.

**Holloway Family Conduct Mormon Service At Legion Hall Sunday**

The Church of Latter Day Saints enjoyed an interesting program at their evening worship hour Sunday at the Belle Glade Legion Hall according to Mrs. H. B. Walker.

The evening entertainment was furnished by W. C. Holloway talked on "Prayer." Miss Mary Holloway played a piano solo. District Supervisor Daryl Shumway made an address. Bobby Holloway's subject was "Education." W. C. Holloway presented a discussion of "Genealogy." Miss Edna May was pianist for the evening.

Other visitors were Mrs. Holloway and Elders Andrew Carson, Haywood Davis and Curtis Slade. The group had been in charge of the entertainment at the Fort Pierce church at the morning service.

**Citrus Canning Is Growing Into Big Business In Florida**

The canning and preserving industry in Florida is a \$75 million business, according to the Florida State Chamber of Commerce.

The importance of this phase of food manufacturing in Florida is brought out in this week's

business review of the State Chamber's research and industrial division.

Latest official reports (1947) list 89 plants in Florida engaged in canning fruits and vegetables and manufacturing soups, preserves, jams and jellies. These plants employed 5,882 persons to whom they paid \$11,230,000 in salaries and wages in 1947. The 1939 payroll was \$2,762,000.

The total value of canned and preserved products was \$74,621,000 in 1947, up 377 percent over 1939. At the same time, costs of materials used in the manufacture of canned and preserved products increased 407 percent.

A total of \$5,022,000 was spent during 1947 for equipment and for new plants of this type. Other food products, such as citrus concentrates, meats, bakery items, beverages etc., are not included in this report.

The manufacture of foods is Florida's largest single type of industry and stems primarily from the State's important fruit, vegetable and livestock production.

Livestock health authorities estimate the annual loss from grubs and shipping bruises at \$100,000,000 a year in the United States.

## 1949 Was Our BIGGEST YEAR In Rural Telephone Expansion

More farm families in the South got new telephones during 1949 than during any other year in history.

The 57,000 poles we erected to extend rural telephone service was a record number, too. So was the 105,000 miles of wire placed in service. Setting these new records required record expenditures of \$26,000,000 for new rural facilities for the year.

Serving the rural areas of the South is one of our biggest jobs, and we're making record progress. It's good telephone service, too—backed by nearly three-quarters of a century's experience, plus the teamwork of the Bell Telephone Laboratories and the Western Electric Company in developing new methods and equipment to make the service still better.

SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY

## How would you like to have the FLORIDA POWER & LIGHT COMPANY pay your electric bill?

If you are Mr. Average Residential Customer  
your electric bill is around \$5.00 per month.

The Common Stock of the FLORIDA POWER & LIGHT COMPANY is currently paying dividends at the annual rate of \$1.20 per share. The income from 50 shares at this dividend rate would provide an income of \$6.00 per year. To purchase 50 shares of this stock at the price prevailing today will cost you approximately \$1000.

Your own banks or investment dealer or our representatives will be glad to tell you about the stock.

## School News

By Doris Matheson

**Red Cross Council At Work**  
The annual chest to be sent to the Red Cross Fund is once more being prepared in the Belle Glade High School.

As in the preceding years, the Junior Red Cross Council is sponsoring the drive for pencils, scissors, crayons, all types of school supplies, and many other articles. At the present time a fully equipped first-aid kit is being prepared for the chest. The council announced they expect to have about five hundred articles in the chest before they send it to the fund on March 15th.

The expense for equipping the chest will be divided among the home rooms to pay for as they see fit. Of course, any donations will be accepted.

**Annual Staff**  
A meeting of the annual staff was held in the high school building Thursday evening. Outlining the formation of the annual and choosing a theme were the main accomplishments. Since it doesn't seem as if work is progressing as rapidly as it should, a letter was written to Mr. Wright requesting him to meet with us and fully explain what is not understood. Pictures will be sent in within the next week. Have your proof in!

**Senior Class Meeting**  
The usual topic, how to make money, was again up for discussion at the Senior Class meeting during sixth period on Tuesday. The first plan agreed upon was to canvass the town selling greenery and wrapping paper for all occasions.

A committee consisting of D. C. Melms, George Murphy, and John Lamb was appointed to make plans for a money making program to be presented in the auditorium soon.

Plans for a dance were also made. The dance will be held on the school grounds and can be made for the annual. Jackie Berry, Kaye Lutz, Joan LeFay, and Mary Brinkley were chosen to select a date and theme for the dance. If all goes well, the senior class may be in the money!

**Junior Class Meeting**  
The junior class finds themselves confronted with the problem each other junior class has faced in years gone by—how to make enough money to sponsor the best junior-senior banquet and prom ever held in Belle Glade High School. Their class meeting on Tuesday during the sixth period consisted of a discussion to discover methods to solve this problem. They also proposed several themes of the prom, but of course this is definitely a hush-hush affair to all of the school except juniors.

**That Mixmaster**  
It has been reported that Coach Levitt likes the mixmaster. The "B" Club presented him and his bride. The report goes that several evenings ago as he was helping Mr. Levitt prepare supper and she asked him to mash the potatoes. When she offered him the potato masher, he refused and plugged in the mixmaster for this task. Must have turned it to high speed—they say potatoes are still clinging to the ceiling!

**Assembly**  
The football boys and cheerleaders were honored in assembly Friday when they were presented their well-earned school sweaters, letters, stripes, and miniature gold footballs by Coach Levitt. He complimented the boys and the cheerleaders for their fine work. Clamor of applause from the student body seconded this compliment.

Mr. Holman made several announcements—mainly referring to more order in the halls between classes. He also announced that books would be checked during home room period, Thursday.

**Basketball**  
The sport in the highlight at the present time is basketball.

Belle Glade scrimmaged with Lake Worth last Friday. When the Belle Glade B string won over Lake Worth 47-30 a man remarked, "I hate to see these string come out!" The A string wasn't quite as successful. They lost by a lopsided, the final score being 36-32.

Belle Glade meets Seacrest tonight so everyone can meet and support your team.

**Veterans Payments Decrease In December**  
Due To Employment

The number of unemployed veterans receiving Servicemen's Readjustment Allowance payments during December declined 16 percent from the previous month, with a total of \$119,815 going to 1,000 in December, according to a report from Florida Industrial Commission Chairman, Raymond E. Barnes.

Self-employed veterans receiving payments under the Veterans program were down to 52 in December, a 5 percent decrease from the previous month. The amount going to \$3,251.

The decrease in claims and payments is, for the most part, a result of seasonal increase of this group for December totaled employment in the citrus packing houses and canning plants, and of the seasonal increase of activity in the trade and service industries in the winter period. There will be a continuing tendency for these payments to decline since the period of time in which most veterans were eligible for such payments has elapsed and each month reduces the number of veterans potentially eligible for these benefits, Barnes commented.

**OPPOSITIONS FAIL TO**

(Continued from page one)  
W. H. Peebles moved that Mr. Cantrell be elected as chairman but this failed for the need of a second. Commissioner Hattaway placed the name of Cliff Greene in nomination and he was elected by a majority vote.

Chairman Greene called up the business matter of the election of a district fire chief. Cantrell read the application of Bill Shaw, of Davis, and made some very warm and strong remarks as to why he believed Shaw a good man for the position. Cannon then read the application of the present incumbent, Guy J. Bender. Bender made the motion that Bender be re-appointed and Commissioner Hattaway made the second. Members voting for Bender's retention were Commissioner Hattaway, Bender, Hargrove, Hattaway, and Ives. Those voting in the negative were Cantrell, Peebles and Harry Kietler, the latter by proxy. Bender's appointment was at pleasure and action of the Board.

At this stage Cantrell gave notice that he would file complaint as to the legality of the board business if had transacted during the meeting indicating that he was not ended with his fight. Members of the board named to the Executive committee, to serve with Chairman Greene, were Commissioner Hattaway and Ives.

Chief Bender informed the Board that the district could not qualify for Federal fund contributions for carrying on the fire protection in the wide nine county district.

A pending contract between the Everglades National Park Commission and the Fire control District was discussed and confirmed. Each unit will assist the other in fighting fires and nuisances when required.

Chief Bender states that there was some complaint from neighboring property owners concerning the location of the district garage shops on West Palm Beach Road, owing to dirt and noise. Mr. R. Y. Crech, Sr. stated that there was 215 acres at the Airport available for use as a shop, and that all was needed to secure same for utilization was the consent of the I-1 Board. This contract will be made by the Control district officers.

Copies of the proposed budget were presented each member and after much discussion it was adopted. Chief Bender stated that if he could secure an additional \$3,000 he could place the men laid off in 1948, on account of state curtailment of funds, for a limited period during the worst fire period of 1950. He also stated that as the District in its history had turned back to the State the sum of \$47,000 that a possible refund might be from that source.

Status of the present wardens was presented by Bender, recommending that Warden's Brett, Dyess, Sullivan, Rogers, Davis, Wingate, Hattaway and Browning be retained as all had performed faithful service from four to eight years. Cantrell requested that the matter of the wardenship in his county be left open for later recommendation, which was agreed to by the other Commissioners.

The books of the District were ordered audited.

## Episode Story As Gleaned From Police Court Session

Twenty cases were on the Police court docket for Judge Lloyd to hear on Monday night, but a number of the accused, forfeited.

Ernest Little went home tired and began bawling his wife and angry after a day's work around the room. He got so mad that he tore out her radio and picked it up the second time to throw it to destruction. Besides paying his fine of \$10.00 Little was ordered to replace the radio at the city hall.

A. T. Carver, was taking a drunken slumber in his room, and forgot to extinguish his cigarette. Result, a fire that burned the bedding. Carver was directed to replace the burned bedding and also to leave \$25 at the city hall.

Walter McClain, got a disgruntled idea of world affairs, especially his own, and when he entered the home of a crippled negro by the name of "Pop", he struck a woman and drove a knife in the shoulder of the crippled man as he reclined on his bed. From a friend, he him \$100 and costs, and 30 days at street work, to cool him down.

Several offenders who had done a little better picking with knives and ice picks got off rather easy with fines, of \$10 and costs.

Robert Faver, an aged colored man, drew the sympathy of the court and gallery, when he came limping into court, to answer a charge of drunkenness. Faver told the court that he had resided here for 18 years and had never been in court. He claimed he was not a drinking man, but had taken a "nip" from a friend, and it had been too much for him, and he had tried to get home by a taxi, but had been "dumped out" when he could not pay. Court gave him a fine of \$1.

## NEW ARMY ENGINEER

(Continued from page 1)  
Reynolds and Smith, Inc., Lakeland, Florida, earlier this month at an estimated contract cost of \$286,730. Five to six months will be required to complete this work. It will be the first increase in a continuous series of contracts ending from the West Palm Beach Canal on the north to south of Homestead, providing both flood protection to the lower Florida east coast population and improvement of the ground water supply of these same areas in dry periods from the water storage in the huge conservation areas lying west of these levees.

Tentative construction scheduled for the remainder of the fiscal year ending 30 June 1950 calls for commencing construction of levees L-35 and L-36, adjoining L-35A to the west and north respectively, at an ultimate estimated cost of \$1,740,000, to start about March 1950, and of levee L-3, extending from the West Palm Beach Canal near Twenty Mile Bend generally northwest to the St. Lucie Canal near Port Mayaca at an ultimate estimated cost of \$2,262,000, to start about April 1950, Colonel Pearson said. Construction of L-35 and L-36 will be supervised by Captain Upchurch, the District Engineer announced.

Captain Upchurch is a native of Florida, his home being at Williston. He is a West Point graduate of the class of 1943. After active war service and subsequent extended overseas duty, during which he was awarded the Bronze Star Medal with Oakleaf Cluster, and the Army Commendation Ribbon, he attended Harvard University receiving a degree of Master of Science in Civil Engineering in 1948. Since July of that year he has served as assistant in the Corps of Engineers Suboffice in Clewiston in the Jacksonville District.
